

# Bachelor of Pharmacy (Honours) 2023

# The UQ School of Pharmacy

**The School of Pharmacy is located at the Pharmacy Australia Centre of Excellence (PACE).**

This world class facility, the first of its kind in Australia, is a \$100m precinct dedicated to pharmaceutical research, education and commercialisation.

As a UQ Bachelor of Pharmacy (Honours) student, benefit from the cutting-edge facilities offered at PACE, which include:

- Modern, well-equipped laboratories and pharmacy counselling rooms
- Collaborative teaching and meeting spaces
- Six simulated pharmacies
- Located adjacent to a large teaching hospital
- Academics that are award-winning teachers and respected clinicians and researchers in the broad pharmacy discipline
- On-site branch of the UQ Library, designed by students, for students. The library offers a wide range of quiet study spaces, as well as group interaction rooms

**Diploma in Pharmaceutical Science**  
Ngee Ann Polytechnic

**Apply with your most recent transcript**

**Bachelor of Pharmacy (Honours)**  
The University of Queensland

**Complete your degree in three  
years instead of four years**

# Why study at UQ?

## A recognised qualification

The UQ Bachelor of Pharmacy (Honours) is formally recognised by the Singapore Pharmacy Council. Our graduates practice around the world, in Australia, Canada and Singapore. Australian registration necessitates meeting standards set by the Pharmacy Board of Australia (PBA), including completing an Intern Training Program, 1,824 hours of clinical practice and examinations approved by the PBA, after graduation.

## Scholarship

The School of Pharmacy offers a \$3,000 scholarship to be awarded annually to the highest achieving student from a Polytechnic in Singapore, who through previous study enrolls directly into the second year of the Bachelor of Pharmacy (Honours) program. Allocation is based on academic achievement. All eligible applicants are considered automatically (no application form required).

## Benefit from SCRIPT

An award winning communication program specifically for Bachelor of Pharmacy (Honours) students. Developed by the UQ School of Pharmacy, the Skills for Communicating and Relating in Pharmacy Training (SCRIPT) program helps students master cross-cultural communication with patients and health professionals, increasing employment prospects.

## Experience working as a pharmacist

You will benefit from a comprehensive work experience program which enables you to experience a diverse range of career options including community and hospital pharmacy. You can also engage in placements anywhere medicines are found eg. in community health clinics, ambulances services and other areas.

## Opportunity to undertake individual research experience

The Clinical and Experimental Therapeutics major is for high achieving students who want an in-depth research experience. Students undertake a research project under the guidance of an experienced researcher with no extra time or cost. Past UQ Bachelor of Pharmacy (Honours) graduates now have successful careers in pharmaceutical companies, research institutes, hospitals, government agencies and universities — in Australia, UK, USA and Singapore.

## An interprofessional education experience

We teach you how to collaborate with other health professionals. Starting in year one with HLTH1000 Professions, People and Healthcare, you join 14 health disciplines to learn about health and wellbeing from a range of perspectives and how to navigate the complexity of health and social care systems locally and globally.

The course provides a multiprofessional, interactive experience which will set you apart as a UQ graduate and lay the foundation for your development as a leader in your chosen profession.

## More information

More information about UQ for international students, including the study environment, links to estimated living costs, tuition fees, refund policies, support services, information for students with families, and your legal rights as an international student can be found at [study.uq.edu.au](http://study.uq.edu.au)

## Placement information

Visit [habs.uq.edu.au/current-students/placements](http://habs.uq.edu.au/current-students/placements)

## How to apply

Applications must be lodged via the UQ online application portal either directly or through a UQ representative.

Visit [study.uq.edu.au/apply/undergraduate/international/how-apply](http://study.uq.edu.au/apply/undergraduate/international/how-apply)

## Language requirements

Applicants must meet UQ English Language Requirements. Information at [study.uq.edu.au/applying/english-language-proficiency-requirements](http://study.uq.edu.au/applying/english-language-proficiency-requirements)
