

UQ Summer Research Project Description

Please use this template to create a description of each research project, eligibility requirements and expected deliverables. Project details can then be uploaded to each faculty, school, institute, and centre webpage prior to the launch of the program.

Project title:	Validation of the 4-item SABA Reliance Questionnaire (SRQ), a tool for identifying beliefs about reliever over-reliance for individuals with asthma
Hours of engagement & delivery mode	20 to 25 hours per week, offered on-site at Dutton Park campus with potential for some remote work.
Description:	<i>This project involves the analysis and report writing of data already collected. The SABA Reliance Questionnaire (SRQ) assesses beliefs driving SABA overreliance in individuals with asthma. The aim of this project is to analyse the validity and reliability of the 4-item SRQ for individuals not prescribed a preventer inhaler and prepare findings for publication.</i>
Expected learning outcomes and deliverables:	<i>Students may gain skills in data analysis, survey validation, working with international researchers and have the opportunity to generate a publication from their research.</i>
Suitable for:	This project is open to applications from students with a background or interest in a health-related discipline.
Primary Supervisor:	Holly Foot
Further info:	If you would like further information before applying, please feel free to email Holly: h.ross1@uq.edu.au .
