

Bachelor of Pharmacy (Honours) 2020

“Pharmacy is a great course as it allows me to marry my love of medicine and the human body. The ability to positively impact the lives of others in a 5 minute consultation with my patient is an amazing feeling. It keeps me wanting to learn more each day so that I can share this exciting knowledge with others.”

CuiYing

Bachelor of Pharmacy (Honours) student
Nanyang Polytechnic graduate

The UQ School of Pharmacy

The School of Pharmacy is located at the Pharmacy Australia Centre of Excellence (PACE).

This world class facility, the first of its kind in Australia, is a \$100m precinct dedicated to pharmaceutical research, education and commercialisation.

As a UQ Pharmacy student, benefit from the cutting-edge facilities offered at PACE, which include:

- Modern, well-equipped laboratories and pharmacy counselling rooms
- Multiple teaching dispensaries, including state-of-the-art pharmacy computing systems
- Six simulated pharmacies
- Wi-Fi capabilities throughout the precinct
- On-site branch of the UQ Library, designed by students, for students. The library offers a wide range of quiet study spaces, as well as group interaction rooms
- On-site café facilities
- Close proximity to public transport.

Diploma in Pharmaceutical Science

The University of Queensland

**Complete your degree in 3 years
instead of 4 years**

Why study at UQ?

A recognised qualification

The UQ Bachelor of Pharmacy (Honours) is formally recognised by the Singapore Pharmacy Council. Our graduates practice around the world, in Australia, Canada and Singapore. Australian registration necessitates meeting standards set by the Pharmacy Board of Australia (PBA), including completing an Intern Training Program, 1,824 hours of clinical practice and examinations approved by the PBA, after graduation.

Scholarship

The Faculty of Health and Behavioural Sciences and the School of Pharmacy offer a \$3000 scholarship to be paid during the first semester of study to a Nanyang Polytechnic student who enrolls directly into the Bachelor of Pharmacy (Honours) program. Allocation is based on academic achievement. All eligible applicants are considered automatically (no application form required).

Benefit from SCRIPT

An award winning communication program specifically for Pharmacy students. Developed by UQ School of Pharmacy, the Skills for Communicating and Relating in Pharmacy Training (SCRIPT) program helps students master cross-cultural communication with patients and health professionals, increasing employment prospects.

Gain real work experience from your first year of study

You will benefit from a comprehensive work experience program which enables you to experience a diverse range of career options including community and hospital pharmacy. You can also engage in placements based in community health clinics, ambulance services and other areas where medicines experts contribute.

Opportunity to undertake individual research experience

The Clinical and Experimental Therapeutics major is for high achieving students who want an in-depth research experience. Students undertake a research project under the guidance of an experienced researcher with no extra time or cost. Past UQ Pharmacy graduates now have successful careers in pharmaceutical companies, research institutes, hospitals, government agencies and universities — in Australia, UK, USA and Singapore.

An interprofessional education experience

HLTH1000 Professions, People and Healthcare is a course that engages students across the Faculty of Health and Behavioural Sciences programs. Students learn about health and wellbeing from a range of perspectives and how to navigate the complexity of health and social care systems locally and globally.

The course provides a multidisciplinary, interactive experience which will set you apart as a UQ graduate and lay the foundation for your development as a leader in your chosen profession.

More information

More information about UQ for international students, including the study environment, links to estimated living costs, tuition fees, refund policies, support services, information for students with families, and your legal rights as an international student can be found at future-students.uq.edu.au

Placement information

Visit habs.uq.edu.au/placement-ready

How to apply

Applications must be lodged via the UQ online application portal either directly or through a UQ representative.

Visit future-students.uq.edu.au/apply/undergraduate/international/how-apply

Language requirements

Applicants must meet UQ English Language Requirements. Information at future-students.uq.edu.au/applying/english-language-proficiency-requirements

Your UQ study plan

Nanyang Polytechnic – Diploma in Pharmaceutical Science*

12 units of credit awarded for BIOL1020, BIOM1051, BIOM1052, CHEM1222, PHRM1012 and PHRM1020.

Possible additional 6 units of credit for BIOM2009, BIOM2010, BIOM2030 and BIOM3011 for students who have completed the Diploma-Plus Programme (CLA003 Anatomy and Physiology module).

Year 1	Year 2
<p>Semester 1 (February)</p> <p>PHRM1011 Introductory Pharmacy 1</p> <p>BIOM2009 Human Physiology & Pharmacology A I</p> <p>PHRM2011 Quality Use of Medicines A1</p> <p>PHRM2021 Dosage Form Design A1</p> <p>PHRM2030 Social & Professional Aspects of Pharmacy A</p> <p>PHRM2040 Drug Discovery A1</p> <p>Semester 2 (July)</p> <p>HLTH1000 Professions, People and Healthcare</p> <p>BIOM2010 Human Physiology & Pharmacology A II</p> <p>PHRM2012 Quality Use of Medicines A2</p> <p>PHRM2022 Dosage Form Design A2</p> <p>PHRM2041 Drug Discovery A2</p> <p>PHRM2050 Biological Fate of Drugs A</p>	<p>Semester 1 (February)</p> <p>BIOM3010 Human Physiology & Pharmacology B1</p> <p>PHRM3011 Quality Use of Medicines B1</p> <p>PHRM3021 Dosage Form Design B1</p> <p>PHRM3031 Social & Professional Aspects of Pharmacy B1</p> <p>PHRM3041 Drug Discovery B1</p> <p>Semester 2 (July)</p> <p>BIOM3011 Human Physiology & Pharmacology B2</p> <p>PHRM3012 Quality Use of Medicines B2</p> <p>PHRM3032 Social & Professional Aspects of Pharmacy B2</p> <p>PHRM3042 Pharmaceutical Discovery & Microbiology</p> <p>PHRM3052 Biological Fate of Drugs B</p>
